

2014

1. Annual Meeting on 1/26/2014
2. Contacted Project Green Environmental Project which did an energy audit on the Church and Parish Hall.
3. Project Green replaced all of our florescent fixtures with the newest and least energy consumption, rewired many of our light sockets and replaced every light bulb in the Church and Parish Hall. The total cost of the project was \$6191. The cost to Trinity was \$500. Especially cool was the fact that we talked them into installing seven day programmable thermostats which Michael and I have been looking for for over four years!
4. Fabry Inc., our organ repair company, replaced the original blower unit on the Organ. Long live the refurbished Organ and our undying thanks to Guy Stephens father for all his work getting the organ up and running back around the turn of the century.
5. Deacon John began attending our Morning Prayer service on Wednesday and added a healing component to the service.
6. All of the cushions in the Church were replaced - ahh!
7. Olsson Roofing finally came out to repair our roof.
8. Two dead trees were removed from our parking lot
9. The parking lot was re-stripped.
10. Bishop Epting joined us for a wonderful Palm Sunday celebration and the welcoming of Rene and Theresa to Trinity!
11. Stations of the Cross and Holy Communion were celebrated on the Wednesday before Easter.
